- ⇒ Clean Sprayer
- ⇒ Apply spray solution within 8 hours of mixing to insure effectiveness of Nitro/Max
- ⇒ Water should be warm
- ⇒ If Water is chlorinated, fill tanks and let sit overnight before adding Nitro/Max

***Don't treat your soil like dirt***

## Fish/Agra Features and Benefits

1. Complex array of nutrients and minerals
2. Excellent nutrient broth for soil microbes
3. Significant increase in antioxidants
4. Increased energy and sugar in the soil
5. Enhance fertilization - a small amount of Fish/Agra mixed with other fertilizers and nutrients help plants better assimilate those nutrients.
6. Eliminate burning when applied with pesticides in Land oil
7. Increase organic matter and earthworm population
8. Fish/Agra works well in cold weather
9. Provides slow release of nitrogen for 15 weeks
10. Compatible with most fungicides, insecticides and herbicides
11. Blended to produce active high energy soils
12. Increases action exchange capacity
13. 100% soluble

## Ingredients:

Fresh whole Atlantic Ocean Fish

## FishAgra analysis

- |             |      |
|-------------|------|
| 1. Nitrogen | 4.0% |

## Fish/Agra - What it is?

Fish/Agra is made using a cold process called hydrolysate. This process uses the entire fish, not only byproducts, thereby retaining full nutrient value. It augments the rapid reproduction of soil bacteria while slowly releasing nutrients. Nitrogen in fish takes the form of amino acids that break down slowly and steadily. In addition, fish proteins chelate with minerals in the soil preventing phosphate fixation and keeps both phosphates and minerals available to plants. Application is by spray to soil and as a foliar.

## Instructions:

1. Fish/Agra can be used on all crops
2. Mix well before use
3. Soil application Rates and Dilution:  
Add 1 pt. of Fish/Agra to 2 gallons of water
4. Foliar spray rate:  
Add 2 oz. of Fish/Agra to 2 gallons of water
5. For vegetable crops:  
Add 1 pt. of Fish/Agra for every 5,000 sq. ft.  
Foliar feeding at time of bloom, 8 oz. per 5,000 sq. ft.
6. Flowers:  
Apply foliar rate of 2 oz. of Fish/Agra in 2 gallon of water
